

5050 3chip 4smd led module

SPECIAL FEATURES

- ABS housing filled with epoxy and 3M tape on back
- 3 chips in 1 SMD, super bright
- Low degradation & low power consumption
- High brightness & high optic uniformity
- Environmental-friendly, no UV&IR radiation
- The light source is high bright(3chip-in-1) 5*5SMD LED

ENVIROMENTAL

LED working temperature: ≤52 Celsius degree

Storage temperature: -40~70 Celsius

Light attenuation quotient: 3%-5% 1KH

SAFETY

ROHS & IP68

SPECIFICATON

Current: 80mA

Input voltage: DC 12v

Watt consumption: 0.96w

Viewing angel: ≥120degrees

waterproof: IP68

Net weight: 11.7g

Spacing: 75.5mm

Dimension: 36mm*36mm*13mm

Life span: 50,000 hours

Lumen: white 55

Color available

Green - Blue - White - Warm White - Red
